

Infant/Toddler Activity Plan

Child's Name: _____

Primary Caregivers at QC: _____

Please write your child's normal pattern of activities between drop-off and pick-up including sleeping and eating with approximate times below. We will do our best to follow it understanding that the times may vary due to the child's or group's needs. Diapers are changed at least every 2 hours. Cribs are only used for sleeping. We go outside twice daily as weather permits and our developmentally appropriate curriculum activities are done with the children throughout the day to ensure that they are held, played with, talked to, and given opportunities to sit, crawl, toddle, or walk outside their cribs. Thank you!
